#### DETAILED ACTION

#### Election/Restrictions

 This application contains claims directed to the following patentably distinct species of the claimed invention:

Specie I

Figure 1.

Specie II

Figure 4.

Specie III

Figure 6

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 2827

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

- 2. During a telephone conversation with Wei Te Chung (Reg. No. 43,325) on March 7, 2003, a provisional election was made without traverse to prosecute the invention of Specie I, figure 1, claims 1-2, 4-6, 8-13 and 15-20. Affirmation of this election must be made by applicant in replying to this Office action. Claims 3, 7 and 14 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.
- 3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Art Unit: 2827

## Drawings

4. The drawings are objected to because the figures are improperly cross hatched. All of the parts shown in section, and only those parts, must be cross hatched. The cross hatching patterns should be selected from those shown on page 600-114/115 of the MPEP based on the material of the part. See also 37 CFR 1.84(h)(3) and MPEP 608.02.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

5. The drawings, figures 1, 4 and 6, are objected to under 37 CFR 1.83(a) because they fail to show the connection of via with internal trace for foot print T3 and R3 to the respective internal trace as described in the specification and as respective connections shown for via connecting foot prints T1, R1, T2, R2 and T4, R4 to the respective internal trace. Further the dotted loop shown connecting foot print T2 and R2 in not clear in all the three figures.

Any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d).

A proposed drawing correction or corrected drawings, including respective changes in specification, are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Art Unit: 2827

### Specification

6. The disclosure is objected to, as being incomprehensible to read the daims in light of the disclosure and to apply a prior art, in particular the description of figure 1, 4 and 6, describing the routing of T3', R3', R3", T3" and C3" in relation to figures and their respective connections with foot print T3 and R3.

Applicant is required to submit an amendment, which clarifies the disclosure so that the examiner may make a proper comparison of the invention with the prior art.

Applicant should be careful not to introduce any new matter into the disclosure.

## Claim Objections / Rejections

7. Claims 1-20 are objected, as the disclosure is not clear to understand the invention clearly, it is not clear to read the scope of the claims.

In view of the lack of proper interpretation of the claims, a prior art rejection is not made, as it would not be proper to reject such claims on the basis of prior art.

#### Conclusion

 The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Hashim discloses a printed circuit board having overlapping conductors for crosstalk compensation. Application/Control Number: 10/075,356
Art Unit: 2827

Takashima et al., discloses twisted conductor lines to improve transmission characteristics in the high frequency range.

Childs et al., discloses a layout for noise reduction on a reference voltage.

Howard et al., discloses a circuit board including capacitive coupling for signal transmission.

Bockelman et al., discloses a twisted pair conductor to reduce magnetic field radiation to the surrounding environment.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ishwar (I. B.) Patel whose telephone number is (703) 305 2617. The examiner can normally be reached on M-F (8:30 - 5).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David L Talbott can be reached on (703) 305 9883. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 305 3431 for regular communications and (703) 305 7724 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308 0956
